Student Learning Outcomes

- Increased academic performance
- Vocational training
- Communication capacity
- Improved productivity
- Collaboration
- Efficiency
- Technological aptitude
- Capacity to thrive in diverse situations

Educational Technology

1st Level - Access to Technology

- **Infrastructure** – Servers, networking, broadband, databases, etc.
- **Devices, Standards, and Applications** – The user’s interface to all systems and content + the rules and usages
- **Data** – Information, content, digital curriculum, resources, etc.

Standards and Applications

- Ownership and selection of devices
- Maintenance and care
- Product lifespans and replacement cycles
- Technology configurations and requirements
- Expected ways of using the technology
- Rules and regulations for usage of technology
- Support structures needed to ensure sustainability, efficiency, and productivity
